

Car Parking

Approved by board on: 7th August 2023
Scheduled review date: 7th August 2025

Introduction

This policy relates to safe arrival and departure when entering or leaving the preschool via the car park.

By having separate car parks we encourage safe practices.

Purpose

The preschool aims to have safe practices when using the car park.

Policy

The Preschool have two (2) car parking areas. One area is available for parents and carers to park for 5 minute intervals to drop off and pick up children.

For the safety of all children and families cars should only park on the left hand side of this car park in the allocated car spaces.

The disabled car space is only for people who have a disabled sticker.

There is another car park allocated for staff. This is the only car park staff park in, leaving the other car park for parents and carers. If the staff car park is full, staff will park along the tennis courts or on the other side of the street to ensure visibility for cars coming out of the car park.

Responsibilities

It is the responsibility of all stakeholders of Forbes Preschool to park safely in their designated place.
